

ChemicalInfo CEO to Address ChemSpec Europe Conference on Major Investments in New Service Offerings

ChemicalInfo unveils the results of a major investment in the company's services at ChemSpec Europe 2014.

Dallas, Texas (PRWEB) June 17, 2014

ChemicalInfo, providers of the most comprehensive online databases for chemical and pharmaceutical companies and those who do business with them, announces today that CEO Ernest Cote will be unveiling the results of a major investment in the company's services at ChemSpec Europe on June 19, 2014 at 2pm. ChemSpec Europe is the premier conference for the international custom, fine and specialty chemicals industry.

Cote will demonstrate the new features including the plan to incorporate PIERS import/export data, dynamic filtering, government and other regulatory data placement and a vastly improved user interface. "We maintain a user renewal rate of close to 90%," says Cote. "This is because we are committed to ongoing research, data enhancement and improved features for our Subscribers. Having said that, what we will be demonstrating at ChemSpec is beyond our normal investments: it's a major evolution of our service, and we are excited to share it with this important audience."

ChemSpec Europe takes place in Budapest, Hungary from June 18-19th at the HungExpo. For more information visit the event website.
