**ChemicalInfo Partners with SOCMA to Provide Members
with Online Chemical Services Directory**

Dallas, TX – ChemicalInfo, providers of the most comprehensive online databases for chemical and pharmaceutical companies and those who do business with them, announce it is partnering with the Society of Chemical Manufacturers & Affiliates (SOCMA) to provide SOCMA members with an online chemical services directory.

“SOCMA is pleased to be working with ChemicalInfo, an organization that collects, verifies and distributes vital information to both buyers and sellers in the chemical and pharmaceutical industries,” said SOCMA President and CEO Jennifer Abril. “Through this partnership we are able to provide our members and ChemicalInfo subscribers with better information about our member companies’ capabilities. SourceFinder, which provides a service where our members can identify opportunities and make business connections, will be a valuable tool for SOCMA members and ensure they have access to the most accurate information when and where needed.”

An interactive online tool, SourceFinder features detailed SOCMA member company information, including producer details, product catalogs, certifications, contact details and custom/contract manufacturing capabilities. Registrants can view information that is listed within each of ChemicalInfo’s products including the Directory of World Chemical Producers (DWCP), PathFinder, FinishedForms and Contract Manufacturing.

“We are excited to partner with SOCMA, an organization that has been around since 1921 and is dedicated to specialty chemical manufacturers, distributors and affiliated service providers,” said ChemicalInfo CEO Ernie Cote. “The decision to create a partnership between ChemicalInfo and SOCMA was easy, and we are proud to offer their members a free online directory using our SourceFinder technology, which leverages ChemicalInfo’s 45 years of experience in gathering detailed global chemical manufacturing data.”

SOCMA members can register for SourceFinder [here](#), and once logged in, begin searching by company name, product, service or reaction capability. The detailed information is maintained by ChemicalInfo’s in-house research department. If a registrant has a question concerning the listed information simply contact the ChemicalInfo Profile Development Manager by email [here](#).

About SOCMA

Since 1921, SOCMA has represented a diverse membership of small, medium and large chemical companies located around the world. www.socma.com

About ChemicalInfo

ChemicalInfo has been the global information resource for buyers and sellers of chemicals and pharmaceuticals for over 40 years. Our integrated products include the Directory of World Chemical Producers (DWCP), PathFinder, FinishedForms and ContractMFG. Along with the expertise of ChemicalInfo’s in-house Research Department, each product allows users to have access to comprehensive data and a better user experience by streamlining the sourcing, sales and marketing process of finding accurate producer and contact information. For more information, visit www.ChemicalInfo.com.
